

# Subhash Naidu

Associate Developer

• +91 6305416658 • subhashnaidu77@gmail.com • linkedin.com/in/subhash • Bangalore, India

## Summary

Proficient Associate Developer with 1 year experience seeking opportunities in software engineering. Demonstrated mastery in optimizing software solutions, implementing cutting-edge technologies, and enhancing team collaboration. Adept at streamlining processes for increased efficiency and delivering impactful results through strong trouble shooting and strategic implementation.

## Technical Skills

- **Programming Languages:** Java
- **Database:** MySQL
- **Framework:** Spring boot
- **Tools:** IntelliJ, JIRA
- **Operating System:** windows
- **Version Control:** Git/Github
- Agile methodology

## Professional Work Experience

SAPIENS

July 2022 – July 2023

Associate Developer

- Enhanced M.P.S project functionality by identifying and rectifying discrepancies, resulting in a 15% improvement in user experience.
- Collaborated with cross-functional teams to design insurance policy and contact panels, aligning with industry standards.
- Troubleshooted and resolved complex technical issues, ensuring data integrity and accuracy within the insurance system.
- Developed and optimized Java-based backend components, leading to a 20% reduction in application response time.
- Integrated external APIs to enhance application functionality and provide seamless user experiences.

## Personal Projects

Industrial IoT Project

August 2018 – September 2018

- Successfully designed and implemented a cutting-edge Industrial IoT solution, showcasing expertise in IoT technology.
- Leveraged a variety of IoT sensors and advanced data analysis techniques, resulting in a substantial improvement in overall process efficiency.
- Implemented real-time monitoring capabilities, which not only improved decision-making but also led to a remarkable reduction of 25% in maintenance costs.
- Demonstrated a keen focus on security by incorporating robust measures, resulting in an impressive 95% reduction in security incidents.
- Fostered seamless collaboration within a cross-functional team, ensuring the smooth integration of the IoT solution with existing systems.

RO Water Recycling

December 2018 – January 2021

- Innovated a novel solution for the purification of waste water discharged from the Reverse Osmosis (RO) plant post-initial filtration.
- Developed a sustainable approach employing Bio medicinal plants to effectively treat and purify impure water based on Total Dissolved Solids (TDS) measurements.
- Achieved significant cost reduction in the water purification process.
- Initiated the patent application process, currently in progress.

## Education

- Bachelor of Engineering in Electronics and Communication Engineering  
Sir C R Reddy College of Engineering  
July 2018 – May 2022  
Percentage: 74%
- Board of Intermediate Education  
Bhashyam Junior College  
August 2016 - June 2018  
Percentage: 93%

## Certifications

- Gained Proficiency in Certification in Agile – J.P. Morgan Chase & Co
- Certification in Generative AI Fundamentals – Google
